STEM Workforce Pipeline Development

What we'll achieve

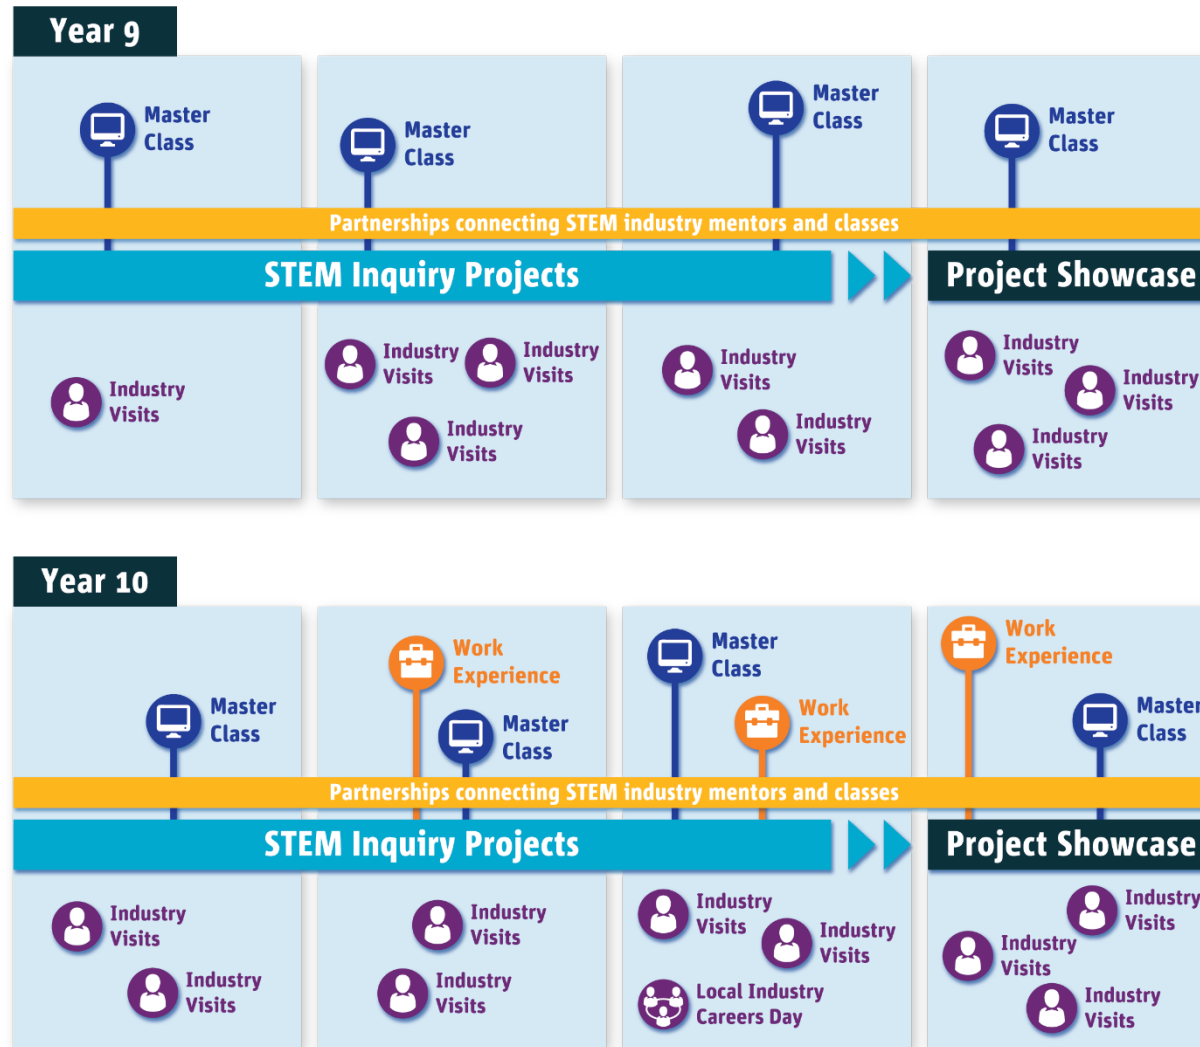

The uptake of STEM subjects in the region

Student awareness of STEM employment pathways

Students' opportunities for hands-on experience in STEM based industries

Real results seen in partner program: RDA Hunter's STEM Workforce Initiative which includes the ME Program.

Program Model

Benefits to Business

Increase in youth awareness of available employment opportunities and projects

Access to future talent pool of work ready employees with STEM skills

Students can work on solving some of your real challenges

<http://www.nbnnews.com.au/2018/04/06/careers-in-aerospace-industry-growing/>

How you can be involved

Submit a STEM
project

Your STEM
employees can
mentor a local
classroom

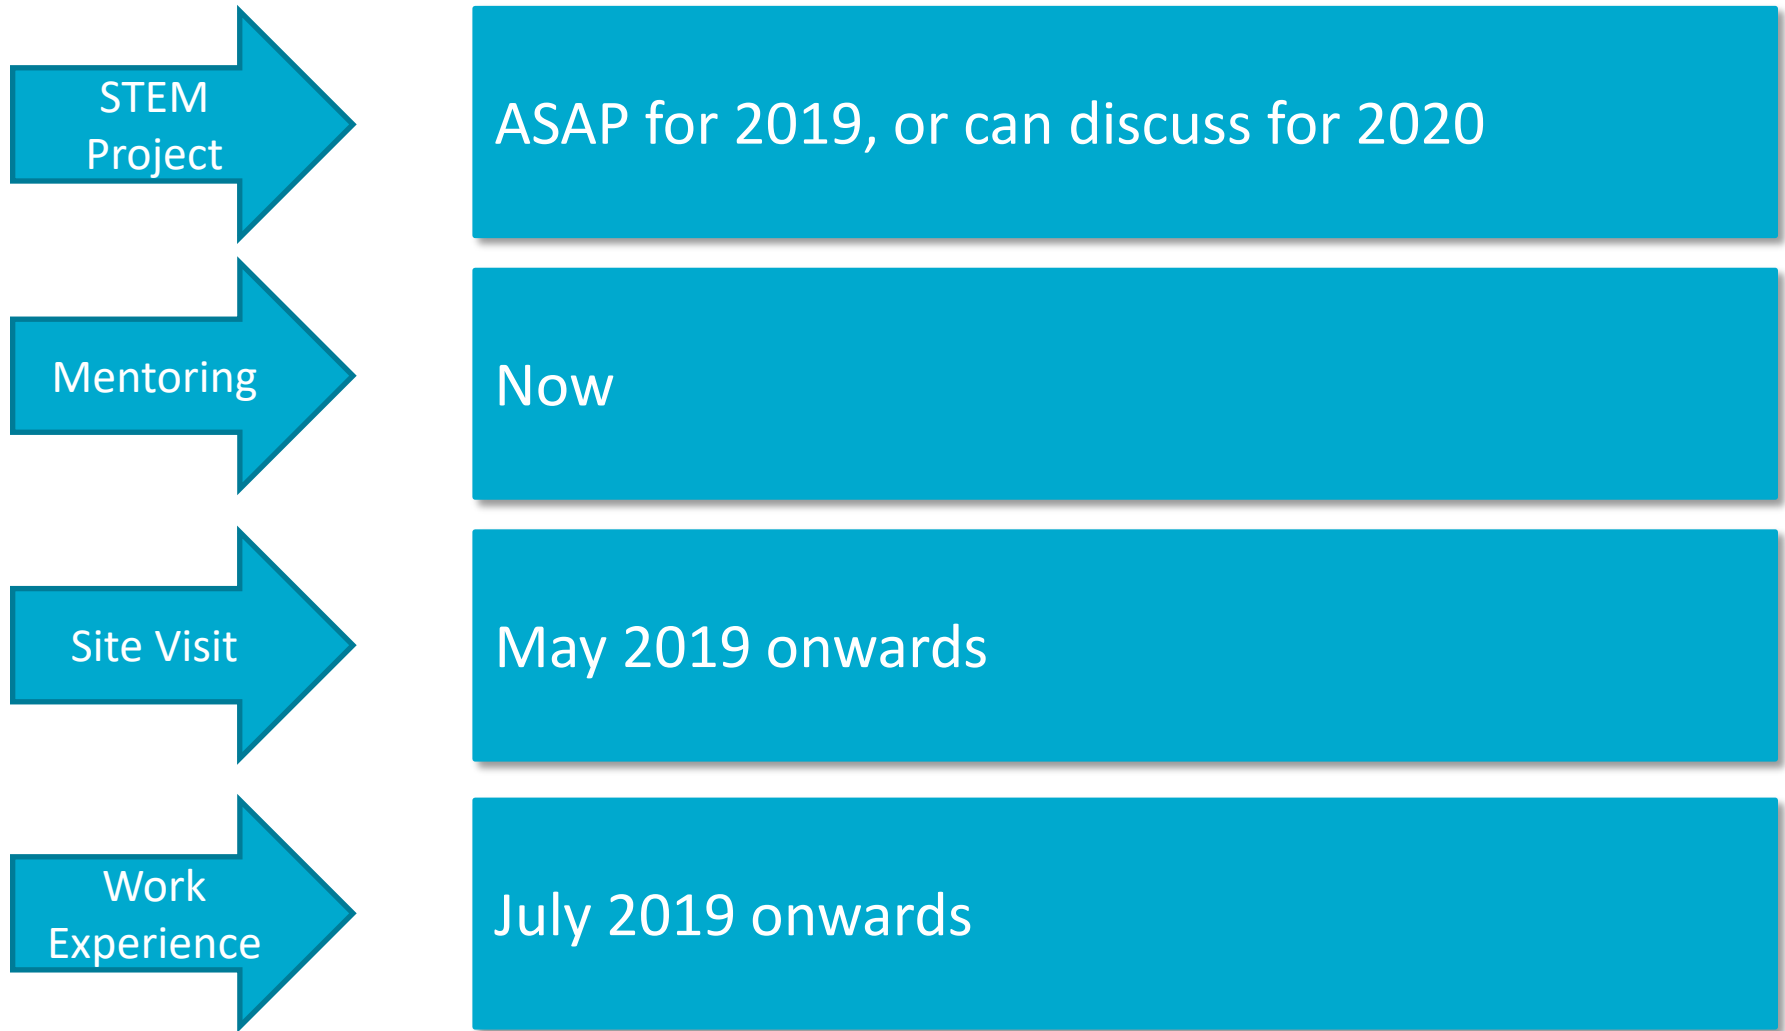

Host a site visit
for a group of
students

Host a work
experience
student

Time Commitment

STEM Project	1hr (maximum) with no further commitment
Mentoring	Flexible. E.g. 3-4 hours per quarter
Site visit	Half day where students can be toured around workplace + coordination time
Work experience	Flexible. E.g Offer student a placement for one week a year + coordination time

When we need your commitment

How to get involved

We're looking for **20+** businesses in 2019

Email: solange.cunin@csiro.au

Please include the following details:

- Business name
- Business location
- How you'd be keen to get involved (STEM Project, mentoring, site visit, work experience)

Thank you

Generation STEM
